Profile

A meticulous and highly skilled Full Stack Web Developer with a Computer Science degree, specializing in the MERN stack. With more than 1200 hours of hands-on coding experience, I bring a strong dedication to my work. I thrive in team environments, where my collaboration skills contribute to the successful delivery of projects. Currently, I am seeking a job opportunity within a tech-driven organization where I can leverage my skills to further my career and expand my technical expertise.
